

Name: _____

Measuring Pets

Your Assignment:

- 1) Choose a stuffed animal to measure.
- 2) Measure the length of its parts in as many ways as you can. Use a standard and a nonstandard unit for each part you measure. Be creative!
- 3) Record your results.

Remember, a measurement always has two parts:

- 1) a number
- 2) a unit.

Example:

Animal Part	Standard Units	Nonstandard Units
ear	12 centimeters	1 $\frac{1}{2}$ cotton swabs

My Animal:		
Animal Part	Standard Units	Nonstandard Units

After you measure, draw a picture of your animal on the back. Label the parts you measured.
