Rubric for Insect Expert Class Presentations

Task Checked	1 point	2 points	3 points
Information about Insect Sound	Writing and oral description of how their insect makes sound is inaccurate. Do not explain that sound is caused by vibrations and do not talk about insect body parts vibrating to make sound.	Writing of how their insect makes sound is accurate, but their oral description is “iffy.” Know that objects have to vibrate to make sound, but are unsure of which body parts of their insect vibrate to make sound.	Writing and oral description of how their insect makes sound is accurate. Know that the body parts of their insect vibrate to make sound.
Grammar/ Composition	There are 5 or more grammar mistakes found on the final presentation poster.	There are 3-4 grammar mistakes found on the final presentation poster.	There are 1-2 grammar mistakes found on the final presentation poster.
Presentation Skills	Students did not look at the audience nor talk loud enough when presenting.	Students did look at the audience most of the time but it was hard to hear them at times.	Students looked at the audience and spoke in a clear and loud tone so all could hear.

#1 What vibrates to make the sound?

#2 Why does your insect make sound?

#3 Describe where your insect lives and draw a picture of its habitat.

#4 A cool fact about our insect.

#5 A cool fact about our insect.
