

It' Smells

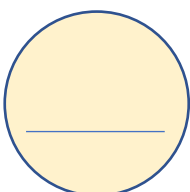

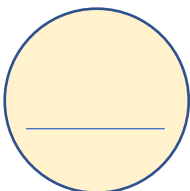

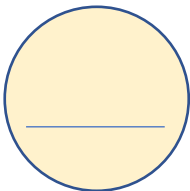

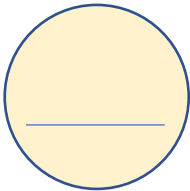

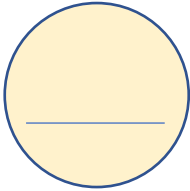

Station #1: Knowing a Scent

Animals often use the sense of smell to help them in their daily lives. In this station, you need to match the different scents. Match the two different sets of samples.

Group A

Group B

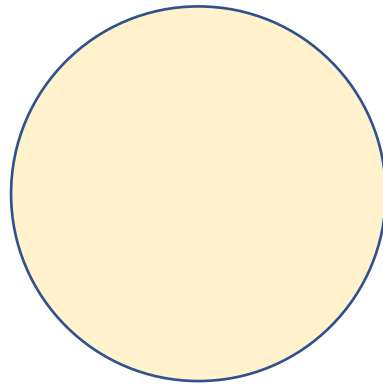

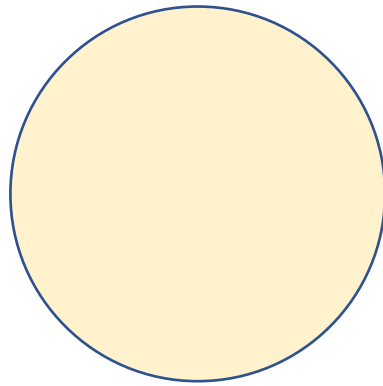

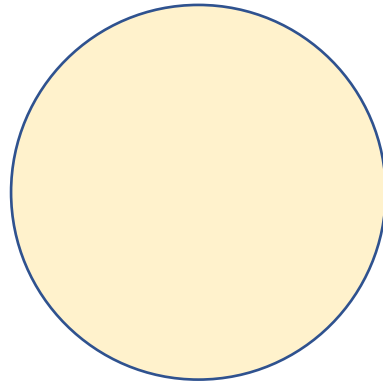

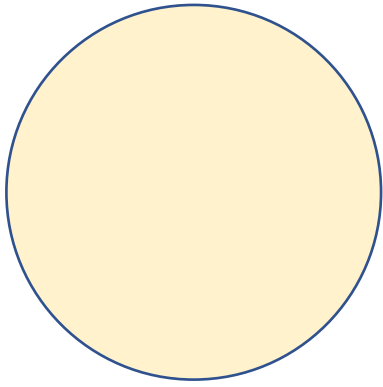

Station #2: Finding Your Group

Locate other members of your group by finding classmates with a container with the same scent.

The scent that I have is:_____

Members of my group are:

**Station #3: What Smells?**

Keep your eyes closed until you are asked to open them and record your thinking.

I think the smell is
