

Our Moon KLEWS Chart

What do we know about the moon? What happens to the part of the moon that is visible over a month?

What do we think we
KNOW?

What are we
LEARNING?

What is our
EVIDENCE?

What are we
WONDERING?

What SCIENCE words
and principles help us
explain?

Moon Messages

Breaking News – Did you know that the moon.....

We are exploring the movement of objects in the sky including the moon. As part of this, we are asking that you help your child observe the moon each night at approximately the same time.

Moon Observation

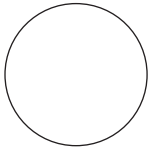

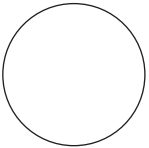

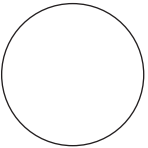

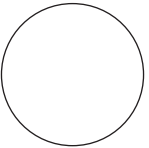

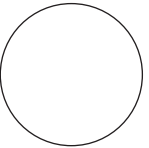

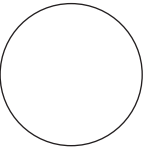

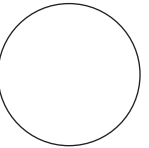

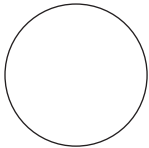

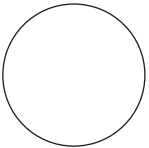

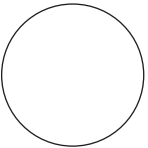

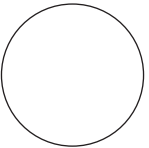

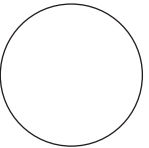

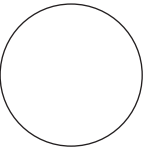

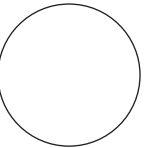

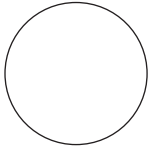

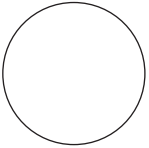

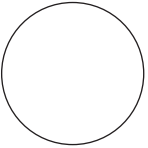

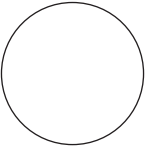

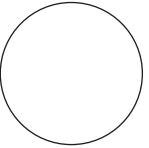

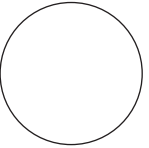

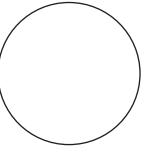

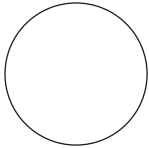

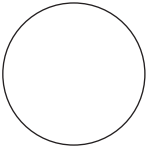

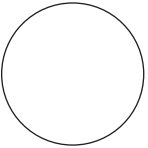

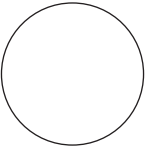

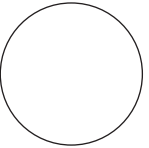

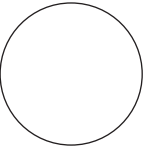

- Each night, go out and help observe the moon.
- Ask questions such as, how much of it is visible? Is that more or less from the last observation?
- Help them think about how much should be colored in (not visible) and how much should be left as white (visible).
- Remind them to record the date

My Moon Observation Sheet

Record the amount of the moon you see each night.
