Water Planning Sheet

The way our team plans to move the water is_____

Sketch your design below.

Park Map

We recommend that we should put the playground_____

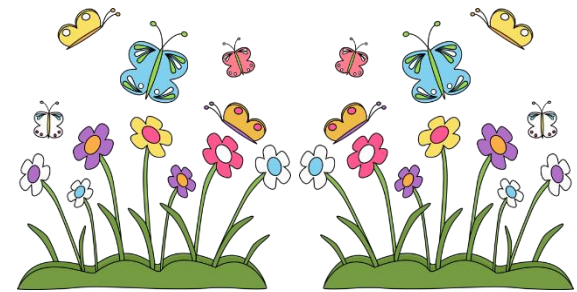

We think the playground should have the following equipment

We would need to make the following changes to the area_____

We think we should do the following about the butterfly garden_____

because

Cameroon Fact Sheet

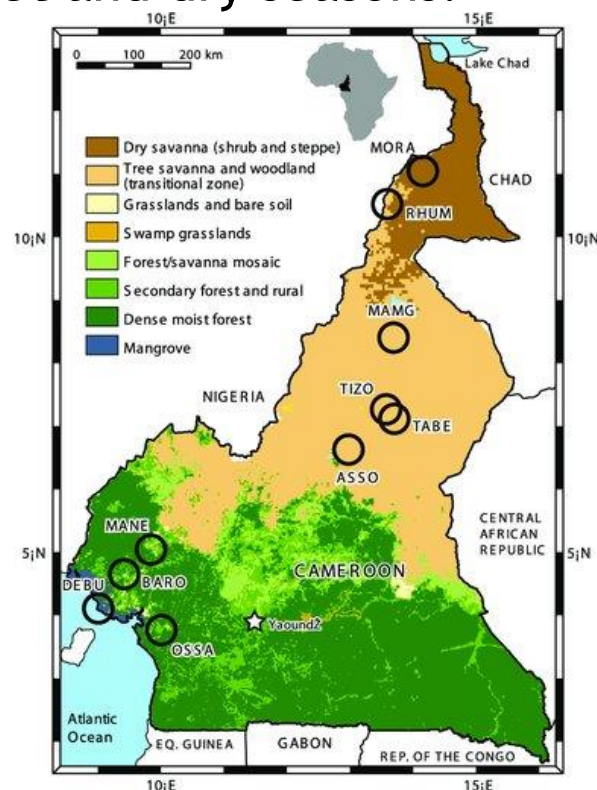

Cameroon is a country in west-central Africa.

There are two languages spoken in this country - French and English.

A large number of Cameroonians are subsistence farmers which is where they grow crops to meet the needs of their families.

Cameroon has different types of climate/vegetation including: coastal, continental, mountains, rainforest, savanna, and desert.

There are both wet and dry seasons.
