

Social Emotional Learning & STEM Identity Interview Questions

SEL focused questions

- What do you think of when you hear the term social emotional learning?
- Have you ever had the opportunity to implement social emotional learning activities with young people? Tell me about your experiences.
- Part of the counselor group meeting agendas this year included suggested social emotional learning activities. How often did you implement those activities?

If they did implement the activities:

- How comfortable were you implementing the social emotional learning activities?
- How did your students respond to the social emotional learning activities?
- Based on your experience implementing these activities this summer, is there any additional training or support that would have helped you feel more comfortable implementing them?

If they didn't implement the activities:

- What held you back from implementing them?
- What kind of training or support would help you feel more comfortable or willing to implement social emotional learning activities?

STEM identity focused questions

- Have you ever heard of the term STEM identity? If so, share a little about what you know. If not, what do you think when you hear the term?

General questions regarding support

- Knowing what you know now, what changes, if any, would you make to the facilitation of your counselor group meetings?
- What ways can the program Director or Associate Director help you feel more prepared to support young people?
- Is there anything else you'd like to share with me today?
