EARTH'S SECRETS POP-UP/DRILL DOWN EXHIBIT

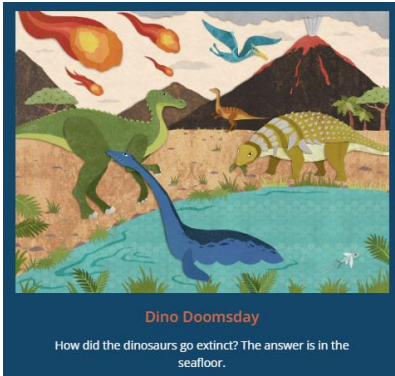

Quakes and Waves

- Questions to think about:
 - How does the seafloor create earthquakes? Tsunamis?
 - What is a subduction zone?

Drilling the Deep

- Questions to think about: How do drill bits cut through the seafloor? How do we drill and core through hard sediment and rock?
- Drill Down Deeper: Hands-on Activities, Videos, and Blogposts:

Dino Doomsday/ Geology Under the Sea

- Questions to think about:
 - How did the dinosaurs go extinct?
 - What are plate tectonics?
 - What is seafloor spreading?

Deep Sea Fossils

- Questions to think about:
 - Why do scientists study the magnetic minerals in cores?
 - Why is it interesting to have minerals able to register Earth's' magnetic field?
