

# Is It a Plant?

Which of these living things are plants? Put an X next to the things that are plants.

- |                                  |                                      |                                   |
|----------------------------------|--------------------------------------|-----------------------------------|
| <input type="checkbox"/> fern    | <input type="checkbox"/> grass       | <input type="checkbox"/> moss     |
| <input type="checkbox"/> vine    | <input type="checkbox"/> grasshopper | <input type="checkbox"/> tomato   |
| <input type="checkbox"/> mold    | <input type="checkbox"/> sunflower   | <input type="checkbox"/> tree     |
| <input type="checkbox"/> onion   | <input type="checkbox"/> weed        | <input type="checkbox"/> bush     |
| <input type="checkbox"/> cactus  | <input type="checkbox"/> water lily  | <input type="checkbox"/> mushroom |
| <input type="checkbox"/> cabbage | <input type="checkbox"/> dandelion   | <input type="checkbox"/> carrot   |

Explain your thinking. Describe the “rule” or reasoning you used to decide if something is a plant.
