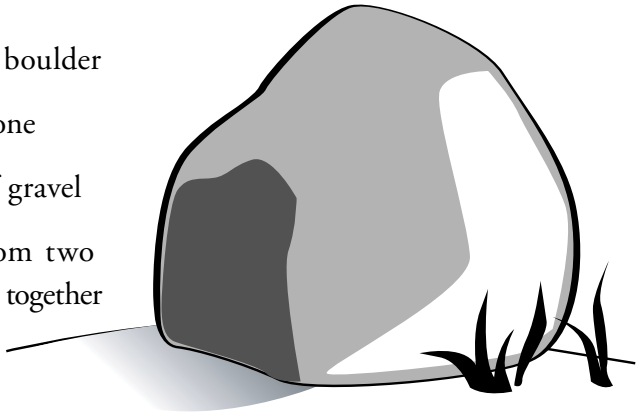
Is It a Rock? (Version 1)

Which things on this list could be rocks? How do you decide if something is a rock? Put an X next to the things you think could be a rock.

- ☐ jagged boulder
- ☐ small stone
- ☐ pebble
- ☐ piece of sand
- ☐ smooth boulder
- ☐ large stone
- ☐ piece of gravel
- ☐ dust from two stones rubbed together



Explain your thinking. What "rule" or reasoning did you use to decide if something is a rock?
