

Is It a Rock? (Version 2)

What is a rock? How do you decide if something is a rock? Put an X next to the things you think are rocks.

cement block

piece of clay pot

coal

dried mud

coral

brick

hardened lava

limestone

gravestone

asphalt (road tar)

iron ore

marble statue

glass

concrete

granite

Explain your thinking. What “rule” or reasoning did you use to decide if something is a rock?
